

- ▶ **Are your customers asking you to send documents electronically?**
- ▶ **Would you like to reduce your mailing costs?**
- ▶ **Would you like to fax documents to your customers directly from your iSeries (AS/400) machine... rather than standing in line at the fax machine? (e.g., Purchase Orders, Invoices, Statements, Expense Reports, etc.)**

Now you can... with ACOM's EZFax/400 solution! EZFax/400 software enables you to fax any iSeries (AS/400) form or document, directly from your iSeries (AS/400) machine, without the use of a PC or fax machine!

When used in conjunction with EZeDocs/400 eForms, the EZFax/400 Module enables you to distribute documents via print or fax with a simple set-up that is transparent to all end users.

EXAMPLE: Several of your customers have requested that you fax copies of their invoices.

Benefits of Sending Faxes Directly from Your iSeries (AS/400), Rather Than Mailing:

- Reduce labor costs... employees save time by faxing from iSeries (AS/400) machine... versus walking to fax machine and waiting.
- Increase efficiency... employees can access previously sent faxes via the iSeries (AS/400) database... no more "lost" faxes.
- Meet customer needs... many companies prefer to receive documents electronically, instead of by mail.
- Increase profitability... return on investment within months. After breakeven, dollars go directly to the bottom line.
- Reduce mailing costs... no postage, envelopes, pre-printed forms, or mailing labels required.
- Reduce supplies costs... no fax machine, ink cartridges, fax maintenance, or paper required.

EZFAX/400 Solution Overview:

- iSeries (AS/400) Software Solution
- No programming required - "hooks" into business applications
- Simple to install and use
- Logs kept of sent and failed faxes
- Automate mission-critical documents via email or fax
- Supports PCL 5 document overlays/templates
- Interfaces with ACOM's EZeDocs/400 eForms Solution {EZeDocs/400 eForms allows you to print all forms to a single printer or to distribute multiple copies to multiple printers, all from your iSeries (AS/400) machine. For more information, see ACOM's EZeDocs/400 eForms Solution datasheet, or give ACOM a call: 800-603-6768.}
- Monitor for and send SCS spool files easily
- Embedded commands and API's available for custom use of the fax module
- Distribute documents seamlessly with this native solution for faster delivery of mission critical documents. It can also be used as a stand-alone module outside of EZeDocs/400 eForms module for sending standard SCS spool files via fax.

Leverage your EZFAX/400 with WebView

- View logs of fax sent from ACOM's EZFAX/400 in a flexible, sortable, graphical environment. This browser-based dashboard enables fast and easy access, allowing you to view and manage the fax messages that were sent, avoiding the need for green-screen interaction. From the logs, confirm that documents have actually been sent; redirect them in one format, such as fax, to the other such as email; and reroute them along with attachments right from the dashboard. It's intuitive, effortless and has flexibility that just isn't available on the green screen.

ACOM's Other Solutions for iSeries (AS/400) Environments:

- EZeMail/400 Module
- EZPDF/400 Module
- EZContent Manager
- EZeDocs/400 eLabels Module
- EZDesigner/400 Module - for designing electronic forms, checks and labels
- EZPayManager/400 Laser Check - printing solution
- EZPayManager/400 ACH Module - for sending electronic payments, such as direct deposit, payroll, AP payments, etc.
- EZPayManager/400 Check Fraud Alert Module - for sending Positive Pay files to your bank(s)
- EZeDocs/400 eForms module - replace your expensive pre-printed forms with electronic form templates that auto-merge with your financial/ERP data (probably at the top of the list for this one)
- EZConnect - EDI & XML data translation, data management & complete partner communications
- EZWebForms - transport documents between trading partners, using the Internet

About ACOM Solutions, Inc:

ACOM develops solutions that integrate with enterprise applications to enhance back-office and B2B processes for electronic, Internet and paper-based commerce. ACOM solutions run in all computing environments (host-resident on iSeries, AS/400 and MS Windows computers), and are compatible with all financial management/ERP applications.
